

SUMMARY

Full Stack Developer with hands-on experience in building scalable web and mobile applications using Next.js, React.js, Node.js, Express, and MongoDB. Proven track record of delivering real-world business solutions through freelancing and personal SaaS projects. Successfully developed and deployed systems handling 100–300+ daily users, including ticket management platforms, billing software for wholesalers, and a course-launching SaaS product. Strong focus on performance, usability, and business impact, with experience in payments, dashboards, admin panels, and real-time validation systems. Passionate about building practical products that solve real problems and generate measurable results.

SKILLS

Next.js, Node.js, Javascript, React.js, HTML, CSS, Mongoddb
